

## Environmentally Friendly Dust Filter for Cement and Flyash

### Haarup Dust Filter

.....

High degree of air cleaning · Efficient filter cleaning · Corrosion-resistant

## An environmentally friendly solution requires a Haarup dust filter

**Corrosion-proof** stainless steel filter body to resist all kinds of weather.

**Control** of the filter elements is done quickly and easily through the inspection hatch.

**Flange** for easy fitting on both new as well as existing silos.

**Blow pipes** in extruded aluminium.

**Air tank** which keeps pressure drops at an absolute minimum.

24.5 m<sup>2</sup> **POLYPLEAT**<sup>®</sup> filter surface allows optimum cleaning.

**Solenoid valves** centrally placed for control of the cleaning process.

**Timer** for adjustment of the venting process.
